Instructions

- Part I: Implementation. This part must be completed immediately after the Workforce Investment & Opportunities Act (WIOA) customer begins training.
- Part II: On Site Monitoring. In accordance with the OJT Monitoring requirements, this section must be completed at least once during the term of the agreement.
- Part III: Close Out. This section is to be completed after the trainee has finished the OJT.
- Part IV: Monitoring Outcome. During the course of monitoring, if any issue or concern is identified, the monitor must document the issue or concern in detail and ensure that corrective action has occurred.

OJT Owner must identify each concern in one of the following manners:

- Findings Is an identification of a specific policy or procedure with which the Employer has failed to comply as outlined in the OJT Agreement, and is significant enough to require action. Findings are followed by Required Actions to be taken by the Employer. A date will be provided by which action or written response by the Employer is expected.
- Observations These are defined as areas needing improvement in administrative or training practices. Observations are followed by Recommendations which are suggested steps for the Employer to consider. If the Employer wishes not to respond to observations it could have a negative impact on future OJT Agreements.
- Comments These may be used to highlight positive aspects of the training program or to identify areas needing improvement in administrative or training practices.

Each OJT Employer should be given feedback at the conclusion of the OJT agreement.
